

Equal opportunities, diversity and family support at the Collaborative Research Center (SFB) „Strukturwandel des Eigentums“

The DFG pays strong attention to equal opportunity (EO) and anti-discrimination and has issued policy guidelines that are also binding for the SFB (see [DFG](#)). In addition, the DFG provides funding for EO measures, especially for supporting young female scientists and family-friendly measures.

The SFB has established its own organizational structure for EO measures: **The Equal Opportunity Committee**. Currently, the members of the EOC are: Anna Saave, Bettina Hollstein, Sylvia Scholz, Petra Gümplova, Antje Linkenbach-Fuchs (MWK representative), Jörg Oberthür and Carsten Herrmann-Pillath. The chairperson of this committee is the **Equal Opportunity Officer** of the SFB. This position corresponds to the EOOs of faculties. Currently, the SFB EOO is: [Carsten Herrmann-Pillath](#).

The EO committee discusses and designs EO measures and submits plans for EO budget and targeted measures to the managing directors of SFB who take the final decision about deployment of funds. SFB members are invited to approach the EOC expressing their needs, demands and problems, to find solutions together, if possible, supported by SFB funding.

All members of the committee can be contacted regarding issues of equal opportunity, diversity, family support and complaints (harassment, violence, discrimination). The committee and the EO closely collaborate with the various organizations at Jena and Erfurt universities that assume related functions. That means, depending on the case, the responsible units are the university units, and the SFB EOC helps to get in touch with them. This is especially true for all formal aspects of employment, as SFB members are employees of the respective universities, and hence enjoy the full rights and obligations of these. For example, formal complaints must always be directed at the respective university offices.

Below, we provide an overview of the relevant units at both universities and the Max-Weber-Kolleg. Structures differ in detail, but generally converge on a joint basis which reflects the respective legal obligations and policy commitments. All texts are excerpts from the university websites.
